

Noggarth: Recent Developments

Route numbers refer to Lancs Rock Further Developments (2020).

- 11 **Ida** HS 4b 2017/2021
15m Start up twin cracks, but continue direct where these veer left. (Original line now straightened).
- 11a **Ida 'O'** HS 4b 2021
15m A direct line from a drill mark.
- 11b **June** VD 2021
16m Pass the first sandy 'bowl' on its right, then go diagonally left to *Ida 'O'*.

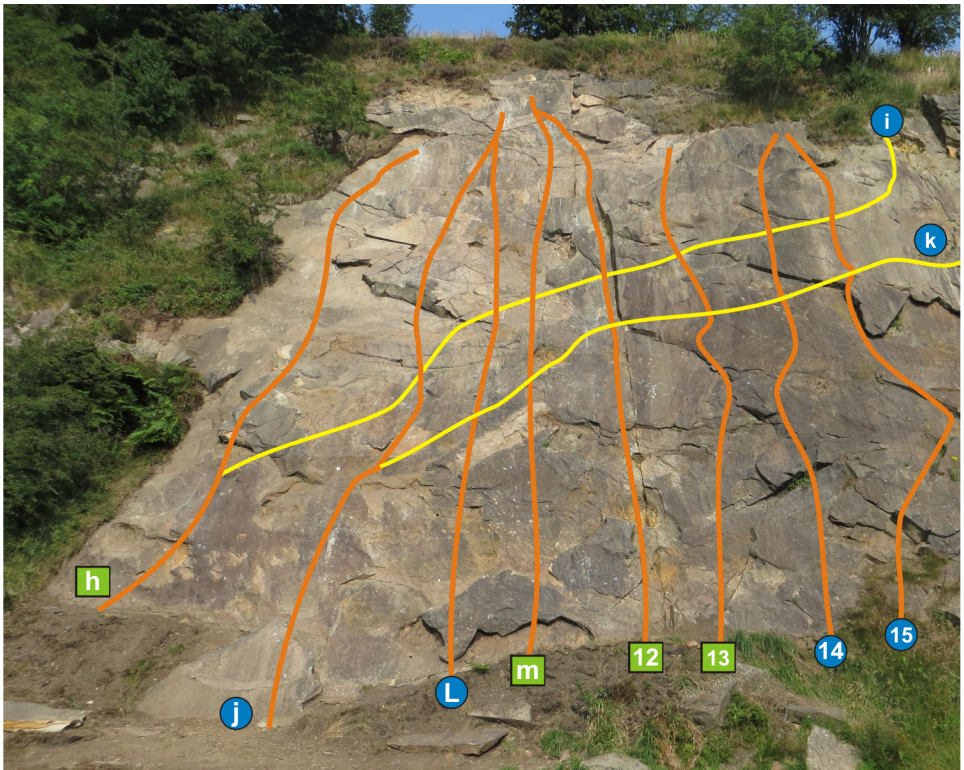

To the right there is a fine slab at a slightly lower level.

- 11c **Katie** HS 4b 2021
17m From the top of a right-leaning ramp cross a small overlap, then head right.
- 11d **Linda** VS 4c ★ 2021
11m From the centre of the slab follow a thin crack to a peg, then continue direct.

- 11e **Melanie** HVS 5a ★ 2021
 17m A thin start (at least for shorties). Start 1m right and climb the wall just right of a bore hole at 3m.
- 11f **Naomi** S 4a 2021
 17m A vague crackline 1m farther right.
- 11g **Olivia** S 4a 2021
 17m From the right edge of the slab climb to a small overlap and finish up the broken groove.

Central Slabs

This area is characterised by a prominent downward pointing triangle of rock (The Fang) at mid-height on the left and a narrow, protruding buttress on its right, guarded by a large overlap.

- 11h **Veneer** F4 2021
 17m A line of bolts at the left side of the Main Slab.
- 11i **Jezebel S** S 4a 2021
 30m A surprisingly easy excursion across the left side of Central Slabs. From the first bolt on Veneer follow a rising traverse line to reach the lower off for *Noggin*. With a 50m rope it is then possible to lower off.

- 11j **Malocclusion** F5 ★ 2021
 20m Follow the bolts from a triangular piece of rock.
- 11k **Crown Point Girdle** VS 5a ★ 2021
 40m A full traverse of the Central Slabs. To avoid rope drag fix slings on some of the pro. From the first bolt on *Malocclusion* make a rising traverse past a sandy bowl to surmount the small overlap and continue past 2 pegs to the first bolt on *Noggin*. Clip a long sling here, then exit right past the arête to reach the top to *Cutting Edge*.
- 11L **Orthodontist** HS 4b ★ 2021
 20m A direct line from a low borehole
- 11m **Plaque** S 4a 2021
 20m Climb past two sandy bowls.
- 12 **Fillings** HS 4b ★ 2018
 20m The prominent thin crack and corner above. Then step left at a small nut placement to reach a lower-off.
- 13 **Novacaine** HS 4b ★ 2018
 17m Climb past small overlaps.
- 14 **Extraction** VS 4c 2018
 17m Thread through the two bottom overlaps, then continue up the wall, passing the left side of the small overlap about a metre left of the triangular block.

- 15 **Fang** HVS 5a ★ 2017
16m Climb up the left side of the massive downward pointing triangular block then climb the slab above past a peg.
- 16 **Canine** HS 4b ★ 2017
16m Climb to the mid-height overlap just right of the triangular block and break through the overlap at a triangular weakness. Continue for a couple of moves until it is possible to move back left to the direct line. Canine Direct (5a) crosses the overlap immediately above the right side of the triangular block.
- 17 **Molars** VS 4b 2017
16m Climb a short, shallow corner to the overlap, then follow a pair of parallel cracks until possible to step left onto a ledge to finish.
- 17a **Unnamed** VS 4b 2021
16m A counter-diagonal from just left of *Noggin* to *Veneer*. Climb easily to the *Fang* block and up its left side to reach a small overlap. Continue to the end of this overlap, then go up over blocks for a couple of metres until it is possible to cross a steep wall on the left to a small foothold. Climb up to meet a curving crack on the right, then move left to *Veneer*.
- 18 **Noggin** HVS 5a ★★ 2017
16m Climb the deep corner to a lower-off.
- 19 **Nogg** VS 4c ★★★ Traditional
21m A direct line, just right of the left arête of the narrow buttress.
- 21 **Garth** VS 4b ★ Traditional
20m A direct line just right.
- 21 **Anonymous Eliminate** HVS 5a Pre-2019
20m Climb to the centre of a 3 inch overlap at about 5m, then gain the ledge above without using the small jug on Barrowford Mantel. From the left end of the ledge move slightly left past a peg then continue direct up a short depression.
- 22 **Barrowford Mantel** VS 4c ★ 2016
20m Break through the obvious overhang at its centre by an interesting mantel (peg), then continue past a peg on the left to a ledge. Finish on the left at a lower off.
- 23 **Cutting Edge** HVS 5a ★ 2017
20m Start up a short corner below the right arête, then break through the roof just right of a peg and move back right to finish up the arête.
- Hawthorn Slab**
The next climbs lie on a short slab on the right with a hawthorn at its base, and a higher section on its right, which is also known as *The Chess Board*.
- 24 **Slags** HS 4b 2017
9m From some graffiti, pass a flake at 5m.
- 25 **Gunner Jim** VS 5a 2017
9m Climb the centre of the slab, passing a peg to reach a tree.
- 26 **Step and Up** S 4a 2017
9m Follow an obvious line of holds right of Gunner Jim.

- 27 **Hawthorn S 4a** 2017/2021
 18m Start up a thin crack with a good nut placement low down, then finish via the right side of the arête.
- 27a **Springfield VS 4c** 2021
 18m Climb the centre of the narrow slab, then continue direct past the overlap.
- 28 **Hawthorne Arête VS 4c** 2019
 17m Start just right at a slightly higher level and climb the left side of the arête past a peg and a borehole to a small ledge, then continue up the groove passing two pegs to reach a lower off.
- 29 **Game of Chess VS 4c ★** 2020
 16m Climb the wall a metre right of the corner groove and surmount the overlap to reach a ledge. Then continue in a direct line up the right edge of the arête.

- 30 **Spion Kop** F6b ★ 2020
15m A direct line passing immediately left of the downward pointing flake.
- 31 **Checkmate** F5 2020
15m Surmount the overlap at the right side of the downward pointing flake, then continue past bolt runners to finish more or less direct.
- 32 **The Bishop** F4+ ★ 2020
16m Follow an easy right-leading ramp then continue past three bolts. From the third bolt an interesting link (**Bishop's Move** 5a) leads diagonally left to a bolt on Checkmate.
- 33 **The Pawn** VD 2020
14m From a short corner take a direct line following a thin crack and finish past a prominent flake on the right.
